Board of Selectmen  
Town of Hinsdale  
Hinsdale, New Hampshire

As part of our examination of the financial statements of the Town of Hinsdale, New Hampshire for the year ended December 31, 1982, we made a study and evaluation of the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such an evaluation is to establish a basis for reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements and to assist the auditor in planning and performing his examination on the financial statements.

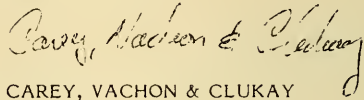

The establishment and maintenance of a system of internal accounting control is an important responsibility of Town officials. The objective of internal accounting control is to provide, reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of these factors necessarily requires estimates and judgements by Town officials.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgement, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally either with respect to the estimates and judgements required in the preparation of the financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

The study and evaluation previously described was made primarily for the purpose of performing an audit in accordance with generally accepted auditing standards. It would not necessarily disclose all weaknesses in the system because it was based on selective tests of accounting records and related data.

A letter of this type is critical by nature. We found many examples of good business management practices in our review of the Town's systems. We wish to express our appreciation for the cooperation we received from Town officials during our work.

Very truly yours,

A handwritten signature in cursive script that reads "Carey, Vachon & Clukay". The signature is written in dark ink and is positioned above the printed name.

CAREY, VACHON & CLUKAY

## CASH REPORTING

Approximately 23% of the Town's cash balance at December 31, 1982 was neither recorded on the Town's books nor reported in the Town's annual report. Internal control over assets is weakened by not recording and reporting the assets. In the case of cash the recording and reporting functions are extremely critical. We recommend that all cash be in the custody of the Town Treasurer and included in the Treasurer's monthly reports to the Board of Selectmen.

We understand that this recommendation has been implemented.

## CONSOLIDATION OF CASH ACCOUNTS

At December 31, 1982 the Town had numerous cash and investment accounts. We recommend where possible that the Town consider consolidating accounts. This should simplify accounting for cash and afford Town officials cash management flexibility.

## CAPITAL PROJECTS FUND

Under generally accepted accounting principles, construction projects are normally accounted for in an Enterprise Fund if the assets are being constructed for Enterprise Fund use. We, therefore, recommend that the Board of Selectmen consider merging the Sewer Construction Capital Projects Fund into the Sewer Enterprise Fund.

## ACCOUNTING SYSTEM

During 1982 the Board of Selectmen upgraded the water and sewer cash accounting systems. We recommend that the Board consider doing the same for the General Fund accounting system.

## LIBRARY CHECKS

Pre-numbered checks are not currently used by the Library Fund. In order to strengthen internal control over cash disbursements at little or no cost, we recommend the use of pre-numbered checks.

## HINSDALE LIBRARY REPORT

1983

On June 7th Mrs. Elizabeth Glover was appointed librarian. She had served as acting librarian following the resignation of the former librarian, William Dunn, in April. Mrs. Mildred Draleaus was appointed assistant librarian. Library hours were changed to open one half hour later in the evening.

A program for recreational reading was held through the summer for children. Special recognition was given to Amy Johnson for reading over 100 books.

Due to loss of funding, the book mobile services were ended. Books on Loan not needed at the state's northern office were absorbed into our collection. A large selection of non-fiction books were donated throughout the year by local citizens. Gifts of books were also given in memory of friends and family. Special labels have been printed for these.

Other people have donated time and talents. A Book sale was held in Oct. with such help. Chair upholstering, book repairing, storm windows and new rugs have enriched our library, too. Thanks go out to all those who were involved.

A trust fund was also established with money given by Lizzie Fletcher in memory of her daughter Sylvia, Fletcher, a former librarian for almost 20 years.

Every effort is being made to make the library a friendly, informative place for the use of everyone in the community.

Respectfully submitted,

Elizabeth Glover  
Librarian

## HINSDALE POLICE DEPARTMENT

1983

The problems of society which ultimately create police statistics are still with us as can be seen in this year's activity report. As most of you read this report you will think about increased costs of operations and the impact those costs have on the tax rate. The duties of a Police Department are, at the same time, both protective and/or corrective and an educational endeavor to reinforce the combined lessons of civics, ethics and morality. It is a never-ending process which can only succeed to the extent that all participate. If it was not for the assistance we receive from the many members of the community who have contributed their concern and support, it would be a much more difficult task to accomplish our goals.

For example, the Police Department has moved from Main Street to River Street beside the Town Highway Garage, Officers resigning and Specials covering to fill the vacancy until a full time person could be found to replace the over-worked Specials. I feel the Town should give a special thanks to the part time Police Officers.

I wish to thank all my officers, the State Police Troop "C" and the Cheshire County Sheriff's Department for their help and cooperation, and extend to the residents of Hinsdale our mutual pledge to serve, protect and enforce.

Respectfully submitted,

Lester Heath  
Chief of Police

## ADMINISTRATIVE ASSISTANT'S REPORT

As we look forward to 1984, I am pleased to report that Town officials and employees continue to work to improve Hinsdale's municipal operations. In government, there are few simple problems and fewer simple solutions. It is important that residents recognize that while they may not agree with a decision reached by officials, a sincere effort is being made by those officials to act in the best interest of the community.

The upcoming year promises to be interesting with several projects on line and several others proposed. Hinsdale has been awarded a four hundred thousand dollar community development grant to fund residential property improvements in the downtown area. This grant, obtained through a joint effort by local officials and the regional planning commission, will make funds available as low interest loans and grants to qualifying residents. We encourage participation in this program and hope that it will lead to community revitalization and future grants for Hinsdale.

This year, Hinsdale voters will be asked to decide on several important issues including the development of supplemental water facilities, the construction of a new highway garage and the locations of the police station. While each of these issues will generate much interest and discussion, we hope that voters will become knowledgeable on the topics and vote responsibly. Town officials plan to do their part by providing accurate information regarding each issue.

Good government is the result of citizen input, and this year as in prior years, we urge local residents to participate constructively in the municipal process and extend our thanks to those who have.

Jeffrey Francis  
Administrative Assistant
